Summary

Software Engineer blending full-stack development with machine learning implementation. Proficient across the entire development lifecycle, from designing responsive interfaces to building AI-driven solutions. Eager to solve complex software problems with intelligent, efficient workflows.

Skills

Language: C/C++, Java, Python, JavaScript, TypeScript
Frontend: React Js, Next Js, TailwindCSS, Bootstrap, Framer Motion
Backend: Node Js, Express Js, Flask, REST API, Uvicorn
Database: MySQL, Postgresql, MongoDB
Mobile: React Native, Expo
No Code: Framer, Webflow
ML/DL: MediaPipe, PyTorch, TensorFlow, OpenCV, BERT
Tools: Figma, Postman, Photoshop, After Effects (Basic), Premiere Pro (Basic), Excel, Gazebo

Experience

Frontend Developer

Nov, 2023 - July, 2025

Kolorowey

New Delhi, India

- **Built** responsive web interfaces using **React.js** and **TailwindCSS**.
- **Developed** reusable UI components to improve development speed.
- **Integrated** RESTful APIs to ensure seamless data flow to the frontend.

Frontend Developer

Sept, 2022 - Dec, 2025

Sunday studio

Chittagong, Bangladesh

- **Converted** Figma designs into high-performance **Next.js** sites.
- **Added** advanced UI animations using **Framer Motion**.
- **Delivered** mobile-first portfolio and agency websites.

Projects

Evently - Event Management System

ReviewNet - NLP Toolkit for Analysis

Infy - File Management System & Chatbot

Fifr - Financial Platform

Sherlocked - Criminal Detection System

Amoha - AI Based Eye Disease Detection

Education

North South University

May, 2022 - May 2026

Bachelor of Science in Computer Science and Engineering

Bashundhara R/A, Bangladesh

Languages

English(Professional) , **Bengali**(Native), **Hindi**(Fluent), **Mandarin**(Basic)
